COMMUNICATION PURSUANT TO 37 CFR 1.8(b)

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 2213-1450

Dear Sir:

Pursuant to 37 CFR 1.8(b), the undersigned hereby informs the Office of a prior timely-filed response that was evidently not received by the Office. Pursuant to 37 CFR 1.8(b)(2), a copy of the previously mailed correspondence including its Certificate of Mailing is included herewith (as Attachment 1). Pursuant to 37 CFR 1.8(b)(3), the undersigned provides the following statements attesting to the fact that the correspondence of Attachment 1 was timely mailed:

1. The present application was filed on July 5, 2001 by the undersigned's prior law firm, Lyon & Lyon. On November 20, 2002, the undersigned filed a Revocation of Prior Power of Attorney and New Power of Attorney, which was accepted on November 26, 2002. On December 19, 2002, the undersigned filed a timely Amendment responding to the first Office Action in this case. On about June 3 and/or 4, 2003, after having received a Report on the merits of the corresponding PCT case, the undersigned called Examiner Blackner to inquire as to the whereabouts of an Office Action in this U.S. application, because one had not been received after the December 19, 2002 response. Examiner Blackner stated that a Restriction Requirement had been mailed on March 21, 2003, and faxed a copy to the undersigned. (See Attachment 2).

2. As evidenced in the Certificate of Mailing on the front page of Attachment 1, the undersigned filed a proper response on June 23, 2003 by timely depositing it on that day with the United States Postal Service with sufficient postage as First Class Mail, addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450. As can be seen, the response included the Transmittal, a Request for Refund under 37 CFR 1.26, a Response to Restriction Requirement including a request

257/210

for a two-month extension of time,¹ and a Form PTO-2038 for \$410.00 to cover the fee for the requested extension. A copy of the foregoing was also sent to the client/assignee later that day. (See **Attachment 3** (enclosure omitted)). Also, the undersigned's copy of his June invoice to the client/assignee confirms that this work on June 23, 2003 was specifically described and charged (at 0.6 hours).

3. This week, however, the undersigned received a Notice of Abandonment dated October 23, 2003, stating that no reply had been received to the March 21, 2003 Office Action.²

4. By way of background, it is noted that the undersigned is currently prosecuting numerous patent applications before the United States Patent and Trademark Office, including more than two dozen on behalf of the assignee of this application. All of the other communications (likely numbering in the hundreds by now) in all of the undersigned's other cases have to present knowledge been received in both directions without any such problem since the commencement of his practice in May of 2002. It is also noted for the record that this matter was fully investigated and the present communication prepared promptly after the undersigned learned of the Notice of Abandonment.

Although it is believed that no fee is due herewith, please charge or credit Applicant's attorney's Deposit Account No. 502502 for any fees required or credits in connection herewith.

By signing below, I hereby attest under penalty of perjury that the foregoing statements are true and accurate based on my personal knowledge.

Respectfully submitted,
Law Offices of Thomas J. Brindisi

¹ June 23, 2003 was within the time for filing the response with a two-month extension because June 21-22, 2002 was a weekend. 37 CFR 1.7(a).

² Although the basis for abandonment in this case is the lack of any received reply at all (not an incomplete or improper one), it is noted that the June 4, 2003 interview (outlined in the Interview Summary sent with the Notice of Abandonment) did not touch on the merits and is not subject to the requirement of MPBP 713.04 as noted in the comments appended thereto.

Request for Refund

Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

A Restriction Requirement was evidently mailed in this application on March 21, 2003, but was never received at the Applicant's attorney's address of record. The attached copy was faxed by Examiner Henry Blackner on June 4, 2003, shortly after the undersigned called and, inter alia, inquired into the status of this application.

Applicant therefore respectfully requests a refund of the fee paid for the two month extension request in this application. The refund may be credited to Applicant's attorney's Deposit Account No. 502502.

Respectfully submitted,

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
 Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION*Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10 and 17-19, drawn to an on-board circuitry automotive pyrotechnic initiator and mating connector assembly, classified in class 102, subclass 202.14.
- II. Claims 11-16, drawn to a mating connector assembly, classified in class 439, subclass 180.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because of the combination as set forth in claim 17, which does not require all of the particulars of the subcombination as claimed for patentability. The subcombination has separate utility such as a light bulb socket.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Henry A. Blackner whose telephone number is 703-305-4799. The examiner can normally be reached on 08:45 - 17:15.
